

ICMS ANNUAL CONGRESS

December 6, 7 & 8, 2017

ANNUAL GENERAL MEETING

(Conference)

The ICMS will present three separate networking opportunities during the PRI Trade Show 2017 including the Annual Congress on Wednesday and Thursday, and the Race Track Safety Seminar on Friday (fee to attend the Conference and Seminar). Friday afternoon from 4:00 to 5:00 p.m. there will be a demonstration of race track procedures by elite motorsport safety response teams that will be open to all (no fee) who have an interest in track operations and safety.

An overview of the December 6 & 7, conference scientific sessions include; advances in driver protection including the latest on the proposed cockpit protection systems for single seat cars, Improvements in circuit barriers and fences, tips and tools for training officials, rescue and medical personnel through improving team work and the use of advanced simulation techniques, an overview of recent research in driver physiology and driver rehabilitation programs with return to competition protocols, medical teamwork in high risk situations and safety updates from specific venues and categories in motor racing. These important and timely topics will be presented by the most experienced and knowledgeable practitioners from around the globe.
